

FOUNDATION FOR A LONGER LIFE

EXTEND THE LIFE OF DAMAGED CONCRETE WITH FASTPATCH

Repair voids, cracks, spalls and defects in roads, car parks, pavements, floors, airport runways and aprons, foundations, pillars and other concrete infrastructure with a turnaround time as little as one hour compared to alternative methods.

EASY TO USE - ALMOST ANYONE CAN APPLY IT

FAST CURING - ALLOWS A QUICK RETURN TO SERVICE

FLEXIBLE - ABSORBS IMPACT AND STRESS

STRONG - SUPPORT A COMPRESSION LOAD 3 TIMES GREATER THAN CONCRETE

Available in low viscosity, meter applied and non sag alternatives to suit all applications.
